EMPOWERING PEOPLE TO COMMUNICATE AND COLLABORATE ANYWHERE

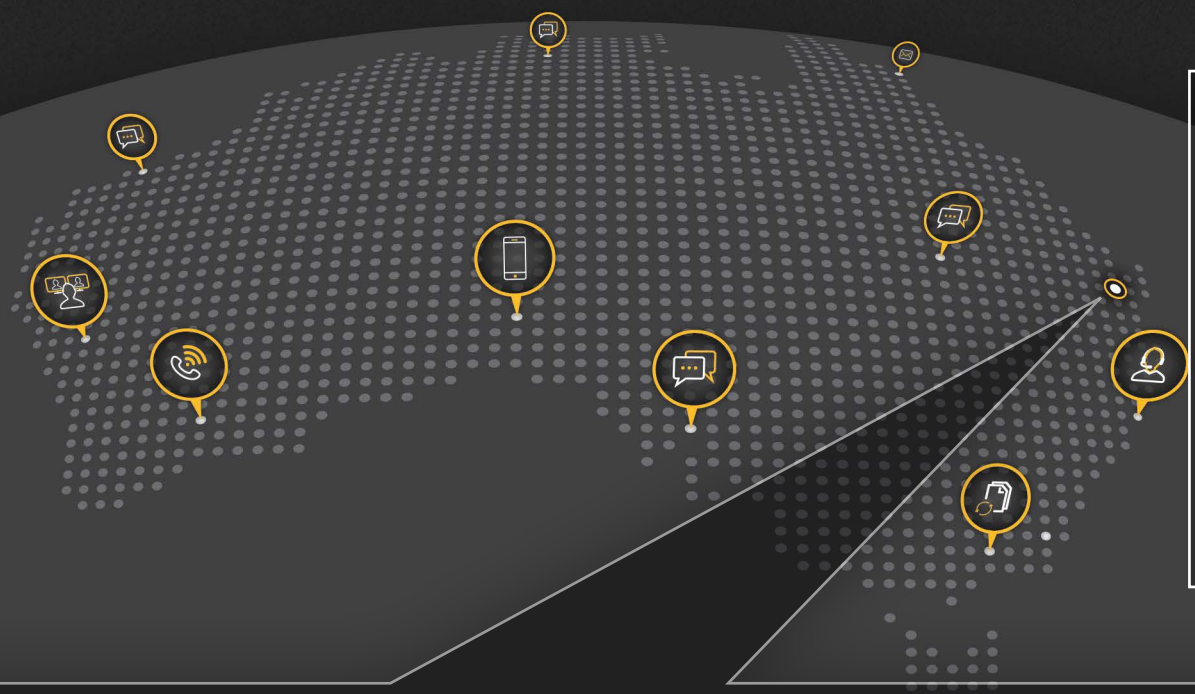
Skype for Business

Built for how people want to work together.

Productivity and collaboration isn't limited to the office:

- Unified client on PCs, tablets, and smartphones
- Anywhere, anytime access
- Integrated with Office 365
- Enterprise Voice and Video
- Content sharing
- Presence, Location and contact card
- Secure and manageable

Reduce the ongoing TCO for your IT infrastructure



Eliminate:

- Management of multiple communication devices
- The need for silo communications systems

A NEXON SUCCESS STORY
NOOSA SHIRE COUNCIL

Built as a premier residential and tourist destination, Noosa Shire Council has been on building upon the values, services and organisational performance guided by the community for how people want to work together.

THE CHALLENGE

Faced with the de-amalgamation of the Sunshine Coast Regional Council, Noosa Shire Council had a requirement to build and manage a complete network and communications environment for multiple locations and their mobile workforce.

REQUIREMENTS

- A hosted unified communications platform
- A hosted email platform
- A private Wide Area Network
- Access to infrastructure to run a range of business applications.

THE SOLUTION

- Hosted unified communications utilising Skype for Business
- Office 365 on hosted Exchange platform
- Fully managed MPLS network
- Secure private connectivity to AWS

THE BENEFITS

A complete unified communications solution
Unifying Telephony, Voice Mail, Instant Messaging, Microsoft Office, Video, Audio and Web Conferencing.

Improved TCO
Through a "per seat per month" model.

Management of the MPLS network.
Provides guaranteed Voice and Video quality.

ADDITIONAL MANAGED SERVICES PROVIDED TO NOOSA SHIRE COUNCIL

- Network management
- Desktop management
- Telecommunication Carrier Services
- Server hosting and management
