

NEXON ABSOLUTE SKYPE FOR BUSINESS CLOUD PBX

Nexon Absolute is a cloud-based unified communications (UC) solution that allows businesses to experience the full potential of Skype for Business Cloud PBX. It can be rapidly deployed via Nexon's hosted platforms, and cost effectively delivered via our pay-per-user service, requiring zero capital outlay.

Nexon Absolute replaces your standard PBX system, while combining and integrating all your communication capabilities on a single, easy to use platform – voice mail, video, audio, web conferencing (such as GoToMeeting and WebEx subscriptions), instant messaging and desktop sharing environments.

Along with your existing Office 365 subscription, Nexon Absolute gives you access to features, like voicemail to email, to ensure your people never miss a beat.

ALL THE BENEFITS, WITHOUT THE HASSLES

Nexon Absolute gives you all the advantages of a truly unified communications solution without the hassles of lengthy and expensive implementations. So if you simply need your collaboration systems to work as promised, while you get on with your core business activities, Nexon Absolute is the right solution for you.

ENJOY THE CLOUD AND THE SILVER LINING

Nexon Absolute is a cloud-based service that's built on Skype for Business Cloud PBX, so it's practically and intuitively more familiar to your people. Nexon Absolute allows you to resolve your organisation's communications challenges, simplify your ICT management, and unleash the full potential of UC. We'll let you decide which part is cloud and which is the silver lining.

FILLING THE VOICE GAP

It's likely you're one of the many companies in Australia already using Skype or Office 365 for Instant Messaging and Presence. For Office 365 users, Nexon Absolute can extend functionality to include enterprise voice features while leveraging the Exchange for voice mail. This fills a critical gap for Office 365 users.

LOW COST, MANY ADVANTAGES

By utilising Nexon Absolute your organisation can significantly reduce the ongoing TCO for your IT infrastructure. In addition, you can gain access to Nexon's discounted Network Carrier Plans, including the option to upgrade to an 'all calls inclusive' monthly CAP Plan. Significantly reducing your monthly phone bills is the main cost advantage, but there are others we'd be happy to discuss with you.

ENTERPRISE AUDIO AND VIDEO EXPERIENCE

To ensure the highest level of voice and video quality, Nexon Absolute can be delivered over Nexon's Private Network rather than the open 'public' Internet. Using our private network allows us to provide you with an enterprise-quality network service guarantee for all voice, video and file sharing sessions.

ZERO TOUCH

Nexon Absolute is a completely hassle-free solution. Our dedicated team not only ensures an easy, free-of-cost transition from your old PBX to a completely hosted environment, it will also provide full maintenance and training for your new communications solution.

PAY AS YOU GO, PAY AS YOU GROW

Nexon Absolute is a hosted access solution delivered as a service, on a pay-per-seat-per-month basis. This model gives your organisation the flexibility of scaling up and down, depending on the amount of users and the style of services you need to suit your organisation's changing needs and budget.

NEXON ABSOLUTE INCLUSIONS

- + Instant Messaging
- + Presence
- + Internal PC-to-PC voice and video
